

Achieve **100%** **EDI COMPLIANCE** with WebEDI by DataTrans Solutions

The Premier Supply-Chain EDI Solution for Healthcare

By using the DataTrans WebEDI Platform, hospitals and other healthcare organizations are automating their *entire* supply chain, **not just the top 10%**, and improving their operational efficiencies while lowering cost.

On-board thousands of suppliers into one integrated solution and maximize the efficiencies of all connected parties while minimizing the costs

Get connected with an EDI Solution as easy to use as email. Empower your vendors to become EDI-enabled with our familiar, intuitive user-interface

Manage by exception, detect errors before shipment/invoicing and ensure the quality and format of all incoming and outgoing documents in real time

An external Business Rules Engine ensures data integrity and automates the integration of approved data into a company's internal system

Being Cloud-based, a web connection is all you need! Plus, say good-bye to costly software installations and maintenance contracts

Gain unprecedented visibility and quickly identify and resolve discrepancies with extensive Dashboards and comprehensive Vendor Score-carding

Automate the integration of your hospital's supply-chain with DataTrans WebEDI
